

Enterprise Application Developer *(Reference Code: MAIS10)*

MobileAccess needs a talented Application Developer to help scale our rapidly-growing telecom equipment business. This position will develop and manage our corporate information systems such as ERP and CRM, and will integrate with specialized applications running in the cloud. Key applications support all areas of the business including sales & marketing, operations, and the executive team. The position is hands-on, involving analysis, design, and programming to improve the company's capabilities. Daily tasks range from business intelligence and data analysis to process design, scripting, and application development, in a primarily Microsoft technical environment. The ideal candidate is a creative, independent information systems generalist, able to work directly with business managers and end users, passionate about building elegant solutions in code. Experience developing and supporting multiple applications across multiple areas of business is required.

Essential Duties and Responsibilities

- Manage key business applications (ERP, CRM)
- Analyze business processes & requirements
- Specify and develop custom workflows, forms, dashboards, and reports in ERP and CRM systems
- Develop applications to streamline and automate business processes
- Evaluate, recommend, and implement third party software solutions and services
- Integrate systems and data using XML, SQL, CSV, web services, and similar technologies
- Perform basic system and database administration for key applications
- Support end users of enterprise applications
- Author basic technical documentation & end user training materials

Qualifications

- Education: Bachelor's degree in Computer Science or MIS, or in a related area with highly relevant experience
- Experience: 3+ years in enterprise application development
- Programming: VBA/VB.Net, SQL, JavaScript, AJAX, HTML, XML, MS Access, MS Excel
- Systems: ERP (Priority or similar), CRM (NetSuite or similar), MS SQL Server, SharePoint, MS Office
- Ability to rapidly learn new technologies, systems, APIs, and programming languages
- Ability to collaborate and communicate effectively with cross-functional teams, in person and in writing
- Excellent problem-solving skills
- Familiarity with object-oriented programming and scripting languages
- Familiarity with web/cloud application development

How to Apply

Please send your resume and cover letter via email to jobs-MAIS10@mobileaccess.com. Mention code: MAIS10. This is a full-time regular position located in the corporate headquarters in Vienna, VA, 22182.
